  - Level 1 (1x5mL)
  - Level 2 (1x5mL)
  - Used for Glucose control
  - Store at 2° to 8°C
  - Includes hCG

**LOOK AT THESE GREAT FEATURES!**

- Quick & easy results for testing urine, stool, wine and other liquids.
- Detects as little as 0.25 mg/dL of glucose.
- Detects glucose and other reducing sugars such as lactose, fructose, galactose & pentoses.
- Store at room temperature.

**5 DROP METHOD**

1. With dropper in upright position, place 5 drops of specimen in test tube. Rinse dropper with water and add 10 drops of water to test tube.
2. Drop one tablet into test tube. Watch while complete boiling reaction takes place. DO NOT shake test tube during boiling, or for the following 15 seconds after boiling has stopped.
3. At the end of this 15-second waiting period, shake test tube gently to mix contents. Compare color of liquid to Color Chart.
4. Write down the percent (%) result which appears on the color block that most closely matches the color of the liquid.

POISON: CAUSES SEVERE BURNS. DO NOT SWALLOW!

THE TESTS YOU WANT. THE ACCURACY YOU NEED!
