

SAFETY DATA SHEET

Australian statement of hazardous nature : Classified as hazardous according to criteria of NOHSC

Section 1 - Identification

| Product Name | Sodium carbonate anhydrous |
|-------------------------|--|
| Product Code | ACR12367, AJA1808, AJA463, AJA464, BSPSL969, FSBS/2840, FSBS/2880, FSBS/2920 |
| Address | ThermoFisher Scientific Australia Pty Ltd 5 Caribbean Drive, Scoresby VICTORIA 3179, Australia |
| Emergency Tel. | CHEMTREC® 03 9757 4559 or +613 9757 4559 |
| Telephone / Fax Numbers | Tel: 1300 735 292 Fax: 1800 067 639 |
| E-mail address | auinfo@thermofisher.com |
| Recommended Use | Laboratory chemicals. |

Section 2 - Hazard(s) Identification

Classification under the National Occupational Health and Safety Commission (NOHSC), Australia

Classified as hazardous according to criteria of NOHSC

Physical hazards No hazards identified

Health hazards

Serious Eye Damage/Eye Irritation

Environmental hazards No hazards identified

Label Elements

Signal Word

Warning

Hazard Statements H319 - Causes serious eye irritation

Precautionary Statements

P264 - Wash face, hands and any exposed skin thoroughly after handling P280 - Wear eye protection/ face protection P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and

Category 2

easy to do. Continue rinsing

P337 + P313 - If eye irritation persists: Get medical advice/ attention

P403 - Store in a well-ventilated place

P501 - Dispose of contents/ container to an approved waste disposal plant

Other information

No information available

Section 3 - Composition and Information on Ingredients

| Component | CAS-No | Weight % |
|------------------|----------|----------|
| Sodium carbonate | 497-19-8 | 100 |

Section 4 - First Aid Measures

| Inhalation | Move to fresh air. |
|---------------------------------|--|
| Ingestion | Clean mouth with water and drink afterwards plenty of water. |
| Skin Contact | Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. |
| Eye Contact | Rinse thoroughly with plenty of water for at least 15 minutes and consult a physician. |
| Protection of First-aiders | Ensure that medical personnel are aware of the material(s) involved, take precautions to protect themselves and prevent spread of contamination. |
| First Aid Facilities | Eyewash, safety shower and washroom. |
| Most important symptoms/effects | No information available. |
| Notes to Physician | Treat symptomatically. |

Section 5 - Fire Fighting Measures

Suitable Extinguishing Media

Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

Extinguishing media which must not be used for safety reasons No information available.

Specific Hazards Arising from the Chemical

Thermal decomposition can lead to release of irritating gases and vapors.

Special protective equipment and precautions for fire fighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

Section 6 - Accidental Release Measures

Emergency procedures

Ensure adequate ventilation. Environmental Precautions

See Section 12 for additional ecological information.

Reference to Other Sections

Refer to protective measures listed in Sections 8 and 13.

Section 7 - Handling and Storage

Precautions for Safe Handling Ensure adequate ventilation.

Conditions for Safe Storage, Including any Incompatibilities

Keep container tightly closed in a dry and well-ventilated place. AS/NZS 2243.10:2004, Safety in laboratories - Storage of chemicals

Section 8 - Exposure Controls and Personal Protection

Exposure limits

The product does not contain any hazardous materials with occupational exposure limits established.

Biological limit values

This product, as supplied, does not contain any hazardous materials with biological limits established by the region specific regulatory bodies

Exposure Controls

Engineering Measures

Ensure that eyewash stations and safety showers are close to the workstation location.

Wherever possible, engineering control measures such as the isolation or enclosure of the process, the introduction of process or equipment changes to minimise release or contact, and the use of properly designed ventilation systems, should be adopted to control hazardous materials at source

Personal protective equipment

| Eye Protection | Goggles | Goggles (Australian/New Zealand Standard AS/NZS 1337 - Eye protectors for Industrial applications) | | | |
|----------------------------------|-----------------------------------|--|-----------------|-----------------------|---|
| Hand Protection | Protectiv | ve gloves | | | |
| Glove material | Breakthrough time | Glove thickness | AUS/NZ Standard | Glove comments | _ |
| Natural rubber Nitrile rubber | See manufacturers recommendations | - | AS/NZS 2161.1 | (minimum requirement) | |

PVC Inspect gloves before use.

Neoprene

Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. (Refer to manufacturer/supplier for information)

Ensure gloves are suitable for the task: Chemical compatability, Dexterity, Operational conditions, User susceptibility, e.g. sensitisation effects, also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion.

Remove gloves with care avoiding skin contamination.

| Skin and body protection | Long sleeved clothing |
|---------------------------------|--|
| Repiratory Protection | Use an AS/NZS 1716 approved respirator if exposure limits are exceeded or if irritation or other symptoms are experienced. To protect the wearer, respiratory protective equipment must be the correct fit and be used and maintained in line with AS/NZS 1715 on the use and maintenance of repiratory protective devices |
| Recommended Filter type: | Particulates filter conforming to EN 143 (or AUS/NZ equivalent) |
| Recommended half mask:- | Particle filtering: EN149:2001 (or AUS/NZ equivalent) When RPE is used a face piece Fit Test should be conducted |
| | |
| Hygiene Measures | Handle in accordance with good industrial hygiene and safety practice. |
| Environmental exposure controls | No information available. |

Section 9 - Physical and Chemical Properties

Information on basic physical and chemical properties

| Appearance | Grey | |
|--|--|---|
| Physical State | Solid | |
| Odor Odor Threshold pH Melting Point/Range Softening Point Boiling Point/Range Flash Point Evaporation Rate Flammability (solid,gas) | No information available No data available 11.5 851 °C / 1563.8 °F No data available No data available Not applicable Not applicable No information available No data available | Method - No information available Solid |
| Explosion Limits | INO data available | |
| Vapor Pressure Vapor Density Specific Gravity / Density Bulk Density Water Solubility Solubility in other solvents | No data available Not applicable No data available No data available No information available No information available | Solid |
| Partition Coefficient (n-octanol/wa | | |
| Autoignition Temperature Decomposition Temperature Viscosity Explosive Properties Oxidizing Properties | Not applicable No data available Not applicable No information available No information available | Solid |
| <u>Other information</u> Molecular Formula Molecular Weight | Na2CO3 105.99 (anhydrous); 124.01 (mon | ohydrate) |

Section 10 - Stability and Reactivity

| Reactivity | None known, based on information available |
|---------------------|--|
| Stability | Stable under normal conditions. |
| Conditions to Avoid | Heat, flames and sparks. |

Hazardous Decomposition Products None under normal use conditions.

Hazardous Polymerization

No information available.

Section 11 - Toxicological Information

Information on Toxicological Effects

Product Information

(a) acute toxicity;

Oral Dermal Inhalation Based on available data, the classification criteria are not met Based on available data, the classification criteria are not met Based on available data, the classification criteria are not met

| Component | LD50 Oral | LD50 Dermal | LC50 Inhalation |
|--------------------------------|--------------------------------|-----------------------------------|-------------------|
| Sodium carbonate | 2800 mg/kg (Rat) | > 2000 mg/kg (rabbit) | 2.3 mg/l 2h (Rat) |
| (b) skin corrosion/irritation; | Based on available data, the c | lassification criteria are not me | et |

(c) serious eye damage/irritation; Category 2(d) respiratory or skin sensitization;

SAFETY DATA SHEET

| Respiratory Skin | Based on available data, the classification criteria are not met Based on available data, the classification criteria are not met |
|---|---|
| (e) germ cell mutagenicity; | Based on available data, the classification criteria are not met |
| (f) carcinogenicity; | Based on available data, the classification criteria are not met |
| (g) reproductive toxicity; (h) STOT-single exposure; | There are no known carcinogenic chemicals in this product Based on available data, the classification criteria are not met Based on available data, the classification criteria are not met |
| (i) STOT-repeated exposure; | Based on available data, the classification criteria are not met |
| Target Organs (j) aspiration hazard; | None known. Not applicable Solid |

Symptoms / effects,both acute and No information available delayed

Section 12 - Ecological Information

Ecotoxicity effects

| Component | Freshwater Fish | Water Flea | Freshwater Algae | Microtox |
|---------------------------------|---|-----------------------|------------------------|----------|
| Sodium carbonate | Lepomis macrochirus: | EC50: = 265 mg/L, 48h | EC50: = 242 mg/L, 120h | - |
| | LC50: 300 mg/L/96h | (Daphnia magna) | (Nitzschia) | |
| | Gambusia affinis: LC50: | | , , , | |
| | 740 mg/L/96h | | | |
| Persistence and Degradability | No information availab | le | | |
| Degradability | Not relevant for inorganic substances. | | | |
| Bioaccumulative Potential | No information availab | le | | |
| Mobility | No information availab | le. | | |
| Endocrine Disruptor Information | This product does not contain any known or suspected endocrine disruptors | | | |
| Persistent Organic Pollutant | This product does not contain any known or suspected substance | | | |
| Ozone Depletion Potential | This product does not contain any known or suspected substance | | | |

Section 13 - Disposal Considerations

| Waste from Residues / Unused Products | Do not allow into drains or watercourses or dispose of where ground or surface waters may be affected. Wastes, including emptied containers, are controlled wastes and should be disposed of in accordance with all federal, E.P.A., state and local regulations. Assure conformity with all applicable regulations. |
|--|---|
| Contaminated Packaging | Dispose of this container to hazardous or special waste collection point. |
| Other Information | Chemical wastes should be disposed through a licensed commercial waste collection service. Waste codes should be assigned by the user based on the application for which the product was used. Do not empty into drains. Solutions with high pH-value must be neutralized before discharge. |

Section 14 - Transport Information

| IMDG/IMO | Not regulated |
|----------|---------------|
| ADG | Not regulated |
| IATA | Not regulated |

Environmental hazards Special Precautions Additional information No hazards identified No special precautions required None known

Section 15 - Regulatory Information

Safety, health and environmental regulations/legislation specific for the substance or mixture

| International Inventories | | X = listed | ł | | | | | | | | |

Key literature references and sources for data

Suppliers safety data sheet, Chemadvisor - LOLI, Merck index, RTECS

Training Advice

Chemical hazard awareness training, incorporating labelling, Safety Data Sheets (SDS), Personal Protective Equipment (PPE) and hygiene.

Use of personal protective equipment, covering appropriate selection, compatibility, breakthrough thresholds, care, maintenance, fit and standards.

First aid for chemical exposure, including the use of eye wash and safety showers.

| Revision Date | 07-Apr-2016 |
|------------------|-------------------|
| Revision Summary | Update to Format. |

This safety data sheet complies with the requirements of Safe Work Australia WHS Regulation

Disclaimer

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the

date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text
