

Sulfiduo PR

Free and Total SO₂ analyser by Paul Rankine method

2 position semi-automatic analyser for free and total SO₂ by Paul Rankine method.

Characteristics

- Paul Rankine method
- Fast, objective and intuitive
- Compact design
- Low maintenance
- Very practical
- No calibrations
- Extremely easy to use
- Power voltage: 230V 180W
- Weight / Dimensions: 5Kg / 24x56x24 cm.

Equipment configuration

- 1 Inox structure
- 2 Condenser glass
- 2 Boiler glass
- 2 Heaters
- 1 Air pump integrated
- 1 instructions manual
