

Free and Total SO₂ analyser by Paul Rankine method

4 position semi-automatic analyser for free and total SO₂ by Paul Rankine method.

Characteristics

- Paul Rankine method
- Fast, objective and intuitive
- Compact design
- Low maintenance
- Very practical
- No calibrations
- Extremely easy to use
- Power voltage: 230V 360W
- Weight / Dimensions: 11Kg / 42x56x24 cm.

Equipment configuration

- 1 Inox structure
- 4 Condenser glass
- 4 Boiler glass
- 4 Heaters
- 1 Air pump integrated
- 1 instructions manual
