

MULTIMETER – Autorange digital, ac/dc 10 amp

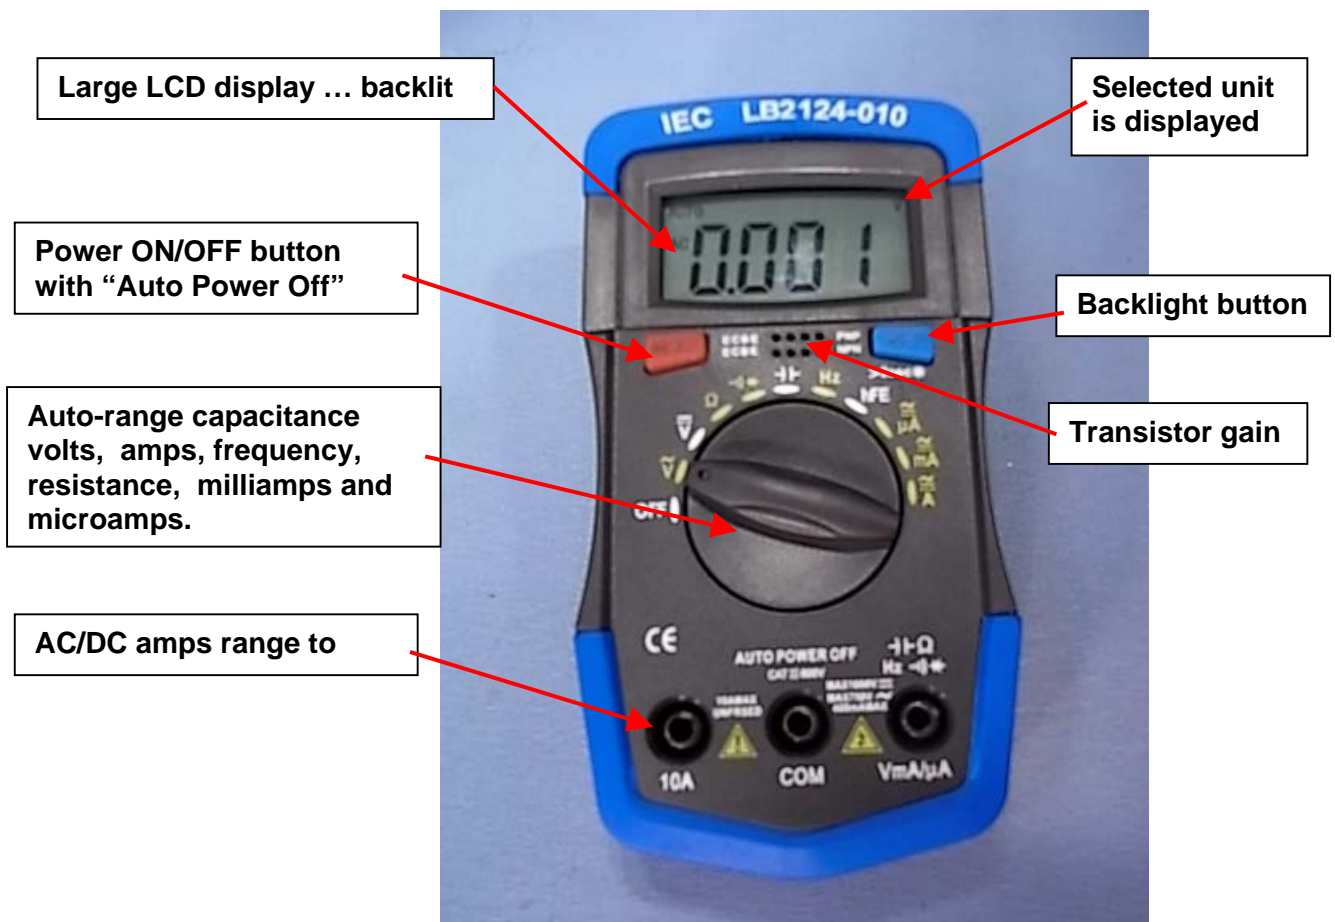

Cat: LB2124-010 Auto-range digital multimeter

GENERAL DESCRIPTION:

This is an easy to use compact Auto-range Digital Multimeter. IEC supplies this meter in several kits for teaching electrical theory in both AC and DC. The features include:

- Press button for illuminated display (backlit).
- Features “Auto Power Off” to conserve battery.
- Uses standard 9V battery.
- Meter has Volts and Amps ranges for both AC and DC.
- Amps ranges for both AC and DC measure up to 10 amps but also small currents down to 1 microamp can be measured.
- Capacitance ranges from nanofarads up to 20 uF (microfarad)
- Resistance ranges up to 200 megohms ... also diode test and ‘continuity’ with beeper.

LB2124-010 Auto-range digital multimeter

Supplied with pair of red & black cables for connection to loads.

Physical Size: compact 145 x 75 x 33mm LxWxTh Weight: 0.12 kg
